To browse the collection

1. Left-click in the white box after the words “Search for”
2. Type in words that describe the type of picture you are looking for. For example, if you’re looking for an oil painting that includes sunsets, type in *oil* (space) *sunset*
3. Left-click on the “Go” button.

Search Results

The search engine will find all pictures in our collection which have the descriptive words oil and sunset in their on-line description.

If the search doesn't come up with anything try using more general words or dropping one of your words. *For example, if there are no pictures that have both **oil** and **sunset** as keywords, try using just **sunset***

You can also try abbreviating words or plural words by typing in **sun?** instead of **sunset** or **sunsets** and the search engine will look for all words that begin with "**sun.**" (Adding the "?" to the end of words tells the computer to do this!)

You can also use the more specific search box (the one on the bottom of the page) to narrow your search—just do the same as above only also left-click the specific search criteria you wish to use and left-click the "Search" button.

The screenshot shows a Microsoft Internet Explorer browser window titled "FineArtPrints Search results - Microsoft Internet Explorer". The address bar shows the URL "http://shadbolt.actinc.bc.ca:8080/". The page content includes a navigation menu with "Help", "Feedback", "Register", and "Quit" buttons. The main heading is "Search Results - FineArtPrints". Below the heading, there is a search summary: "Search for: All fields All words `sunset`", "Sorted by: Reverse of entry date", and "results - 181, starting - 1, ending - 16". The search results are displayed as a grid of 16 thumbnail images, each with a title below it:
